Work Experience

UX Designer at Wyndham Worldwide, NJ

Sept 17 – Present

- Optimize mobile site to increase conversion on mobile platform
- Create sitemaps and wireframes for the newly acquired brands and properties
- Work closely with designers, producers, engineers and product owners

UX Research Intern at Pipedrive Inc, NY

May 16 – Aug 16

Pipedrive BackOffice Tool

- Conducted user research: contextual inquiry and user interviews
- Provided recommendations and created an interactive prototype
- Worked closely with cross-functional teams; design, engineering, product, sales, and support
- **Results:** Average support call time duration reduced from 3.35 mins to 2.45 mins

Pipedrive CRM Tool

- Conducted user research: interviews (in-person and remote), personas, and scenarios
- Performed usability testing on web and mobile app, analyzed findings and proposed effective recommendations
- **Results:** Increased subscription revenue by 7% | Feature adoption increased from 40% to 75%

UX Designer at Rutgers University, NJ

Sept 15 – Feb 17

Suede Mobile App

- Conducted research; collected insights from both sides of the market i.e. restaurants and consumers
- Designed interaction flow and tested with end users
- **Results:** Helped identify the product-market fit and an effective business model

UI Designer/Developer at UST Global

Aug 13 – Mar 15

Blood Donors Database

- Designed user flows and information architecture
- Developed the front-end using HTML5, CSS3 and ASP.NET
